DETAILED ACTION

1. Claims 1-7 and 9-21 are pending.

Allowable Subject Matter

2. Claims 1-7 and 9-21 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art, Gillon US PGPub 2003/0035543, discloses a conditional access key system and provides teachings regarding the fast forwarding of encrypted video. Gillon teaches fast forwarding where a current frame will be displayed until a new key can be generated for the next frame to be shown. Thus, decryption takes place as quickly as possible, by jumping over frames (Gillon, paragraph 73). Gillon fails to teach functionality for actively determining a number of key periods to be skipped for each key period to be descrambled (Applicant's response to amendment, 16 March 2005, page 9). As such, Gillon fails to anticipate or render obvious the above-cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
